DEPARTMENT OF FOOD SCIENCE & TECHNOLOGY

I have been using the electric blanket manufactured by Medico Pharmaceuticals processors. It is a very useful product that protect from cold without loss of heat. I have stopped using heat convector after getting the electric blanket. It is very safe and does not give any electric shock even after becoming wet. This product can be used in a number of applications specially where climate is very cold.

I am highly satisfied with the performance of this blanket.

(Dalbir Singh Sogi)
